Site Navigation:

- The site includes a menu ribbon at the top of the screen that will remain throughout your visit. At any point in time you can click on any menu item from the ribbon to take you to the page of your choosing.

Find A Meeting

The Area 78 AA meeting list can be viewed via the default Map View or the optional Grid View. Both views are the result of a database search based on the city/town and filtering option you select. Filter choices are:

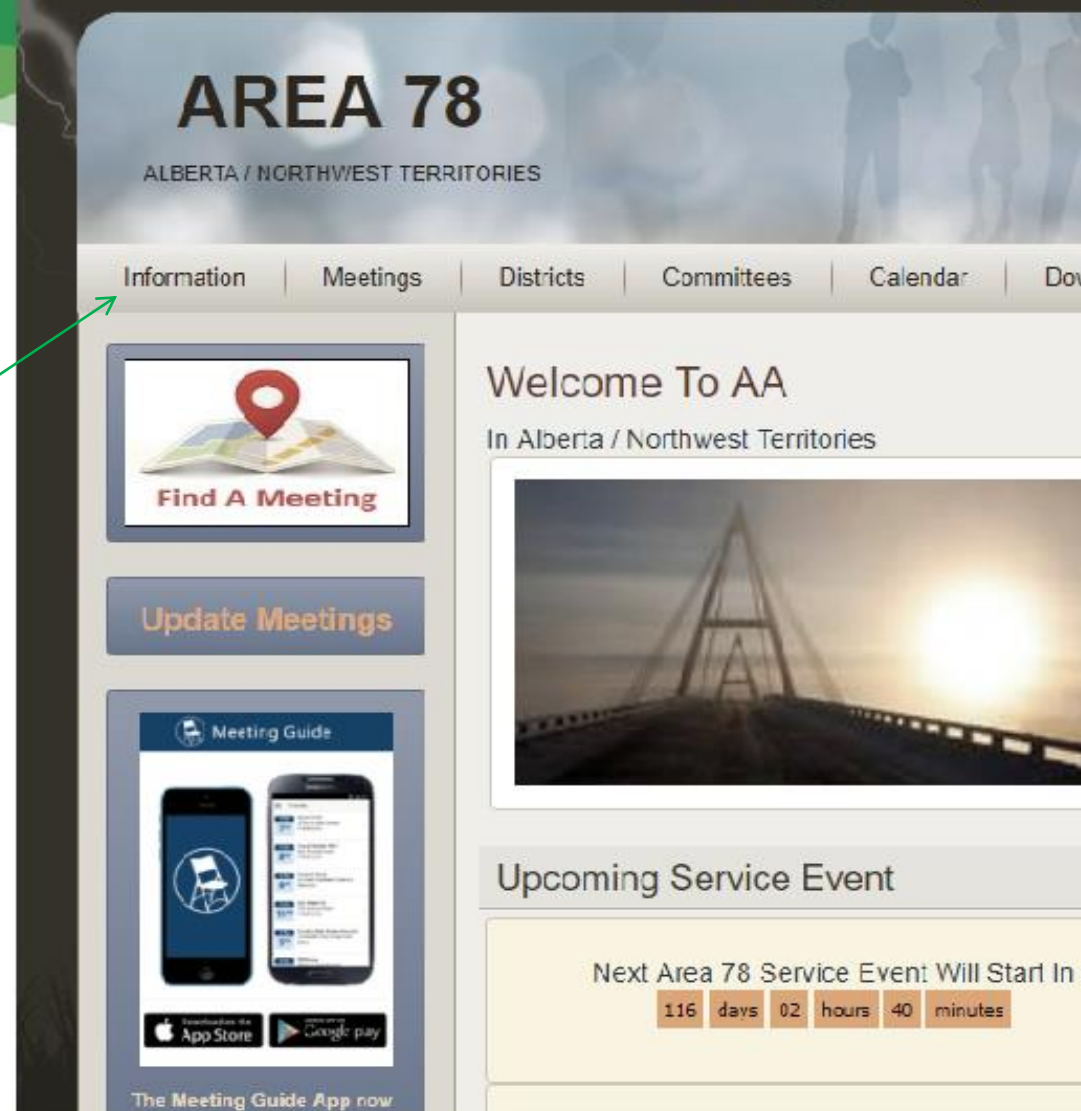

- Filter all the weekly meetings available for your location with the "Get Meetings for all week" checkbox checked.
- Filter for just a specific day of the week with the "Get Meetings for all week" checkbox unchecked.

Update Meetings

- Our Meetings page is by far our most visited page, and the accuracy of the information presented to visitors is entirely dependent on each group **GSR** keeping us informed of changes to their meeting information. Please make sure you check your group's listing from time to time to ensure it is correct.
- The "Update Meetings" button will walk you through a couple of online screens to help you verify and get the correct information submitted to our web administrators.

Post Your Event

- Our web administrators insert Roundup and other AA related events into our Calendar. The "Calendar Links" display on the home page is a list of these events. Clicking on one of these links will take you to that event's detail page, just as clicking on the calendar page links themselves would.
- Use the home page Post Your Event button to access our online form where you can fill in your event information, attach a poster, and submit it directly to our web administrators. Your event will appear on the website usually within a day or two.
